

A damaged slope approximately 2.5 miles east of La Cañada Flintridge.

SR-2 remains closed from La Cañada Flintridge (LCF) to Angeles Forest Highway. It is expected to reopen by Spring 2011.

The Angeles Crest Highway (SR-2) is closed between La Cañada Flintridge and Angeles Forest Highway. Six of the most damaged sections have been repaired.

Due to rains in late December 2010 and early January 2011 a slope above the highway near Browns Canyon (two miles east of LCF) was further eroded creating a rock slide. Two and half miles east of LCF a slope was washed away by heavy rains and debris.

Due to the damage, the highway is estimated to open Spring 2011. The opening is subject to change.

Currently, the highway is open from Angeles Forest Highway to the junction of SR-2 and SR-39 (Islip Saddle). A winter season closure is currently in place at Islip Saddle.

Rock slide at Browns Canyon approximately 2 miles east of La Cañada Flintridge.
